

High Performance Wall Panels

Revolutionary panels featuring NRP® DÉCOR solid reclaimed polymer core material, provide a logical alternative to traditional millwork and solid panels for commercial interiors where high performance, long service life and a value engineered budget are the key factors.

NRP® DÉCOR panels are unaffected by moisture, may be sanitized, and they are durable and easy to clean. NRP® DÉCOR helps you build green because it's core is made with a minimum of 80% recycled plastic and all scrap can be recycled again and again.

NRP® DÉCOR panels are an outstanding solution for hospitals, health care facilities, schools, and corridors, and other areas that demand stable performance, a long service life, at an outstanding value and may be combined with Gecko Wall Systems panel fixing solutions to create beautiful use areas and feature walls.
