

NRP-Ultra takes durability to a new level!

More scratch resistant and scuff resistant than FRP panels, for 20 years the standard in sanitary sheet products, NRP-Ultra is also Class A rated, making it excellent for kitchens, healthcare applications of all kinds, and corridors in high occupancy buildings.

NRP-Ultra offers many decorative options including embossed woodgrains and marbles, as well as solid color and decorative high gloss panels. It is completely waterproof and resists the growth of mold and mildew. It is weldable, so there are no gaps between panels where mold or dirt might accumulate undetected. Where sanitation and ease of cleaning are essential—without sacrificing style—NRP-Ultra is the panel of choice.

Parkland Performance™
WALLS & CEILINGS

NRP-ULTRA—YOUR BEST CHOICE FOR DURABILITY, DESIGN AND VALUE

An outstanding sanitary panel at an outstanding price, NRP Ultra surpasses the traditional panel options in both wear resistance and mar resistance. Join with matching moldings or weld the seams. Panels are available with a smooth, glossy finish, or textured in plain colors or decorative patterns by special order.

FEATURES & BENEFITS

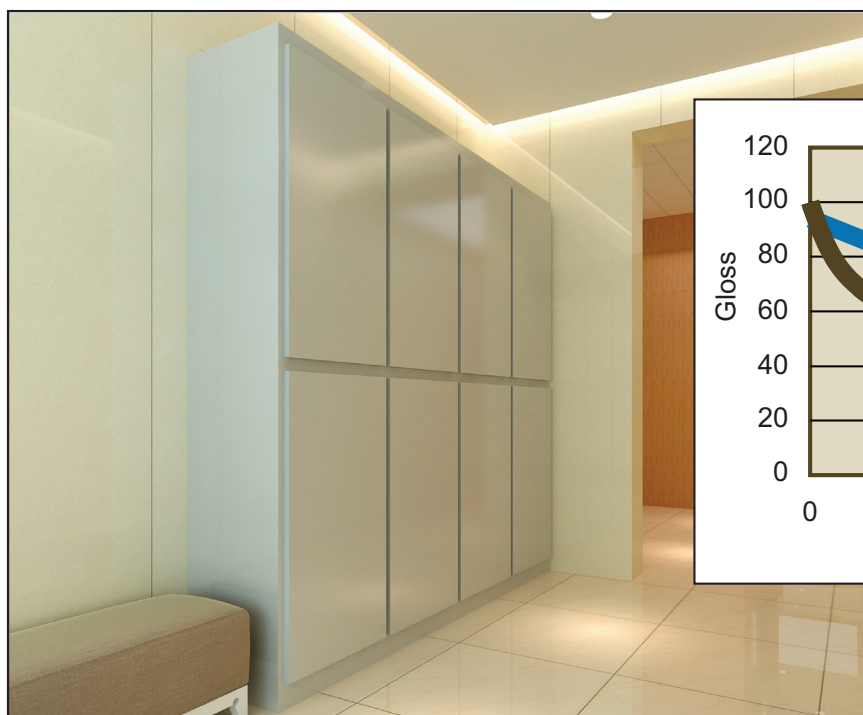

- Easy to clean
- Resists scratching and marring
- Weldable
- Class A
- Resists the growth of mold and mildew
- Decorative
- Waterproof

PRODUCT USES

- Kitchens
- Patient rooms
- Bathrooms and showers
- Wainscoting for corridors and classrooms
- Food preparation
- Locker rooms
- Pool enclosures
- Laboratories.

PRODUCT SPECIFICATIONS

PROPERTY	ASTM TEST	RESULT
Water Absorption	ASTM D570	0.06%
Notched Izod Impact Resistance	ASTM D256	0.3133 ft. lbf/in.
Coefficient of Linear Thermal Expansion	ASTM D696	22.3×10^{-6} in/in/°F
Resistance to Growth of Mold/Mildew	ASTM D3273	Rated 10 - both sides
Cleanability/Stain Test* <small>*Reagents available on request</small>	ASTM D1308	Stain Rating 24 (range 20-200)
Wear Index	ASTM D4060	White 0.077 Niagara Mist 0.041 Sierra Sand 0.063

MAR RESISTANCE - ASTM D6037
